SOFTWRIGHT LICENSING AGREEMENT

BY OPENING THE SOFTWARE DISK PACKAGE OR DOWNLOADING AND INSTALLING THIS SOFTWARE YOU ARE AGREEING TO THE TERMS OF THIS AGREEMENT.

This Agreement constitutes the complete agreement between you (the "Licensee") and SoftWright LLC, a Virginia limited liability company, whose mailing address is P.O. Box 7205 Charlottesville, VA, USA, ("SoftWright") for the use of all programs, software, executable files, configuration files, and data files (collectively, the "Software") as well as all documentation and any other materials produced by SoftWright and delivered by any means whether in writing or in machine readable form (collectively, the "Documentation"). IF YOU DO NOT AGREE TO BE BOUND BY THE TERMS OF THIS AGREEMENT, DO NOT OPEN ANY PACKAGE OR DO NOT INSTALL ANY DOWNLOADED SOFTWARE. RETURN ALL MATERIALS, INCLUDING THE UNOPENED PACKAGE(S) CONTAINING DISKETTES AND/OR CD ROM DISKS TO THE PLACE WHERE YOU OBTAINED THE SOFTWARE OR DELETE THE DOWNLOADED SOFTWARE. This Agreement constitutes a use license (the "License") permitting the Licensee to use the Software.

OWNERSHIP

The Licensee recognizes that the Software and Documentation have been produced by SoftWright at considerable expense to SoftWright in time, money, and labor, and that the Software is a unique product, including any past, present, and future improvements or updates and are furnished to the Licensee under the License for use.

The Licensee acknowledges that title to and ownership of the Software and Documentation-*1 is vested in SoftWright and shall continue to be vested in SoftWright. The License is not a sale of the Software or Documentation. The Licensee acknowledges that the Software and the Documentation are protected by United States copyright laws and international treaty provisions.

The Licensee agrees that the Software and Documentation are and shall remain the confidential and proprietary property of SoftWright and agrees to inform its employees, agents, and any others who may have access to and use of the Software

or Documentation under the control of the Licensee, of the confidential and proprietary nature of the Software and Documentation.

Except as otherwise herein provided, the Licensee agrees not to provide or otherwise make available the Software, or Documentation or any part thereof, or any copies thereof in any form to any third party, without the prior written approval of SoftWright.

The Licensee agrees that the Licensee shall be responsible for damages sustained by SoftWright for any unauthorized reproduction, disclosure and/or use of the Software and Documentation. Damages include reasonable attorney's fees and expenses related thereto necessary to collect damages and/or enjoin the Licensee from improper use of the Software and Documentation.

SINGLE SEAT AND MULTI-SEAT SYSTEMS

The Software is available in both single seat and multi-seat systems. A seat is a running instance of any part of the software. TAP software may be installed on any number of computers; however, the number of simultaneous “activations” is limited to the number of purchased seats. The activations may be managed by SoftWright’s license server over the internet or, manually, by the user when the computer is not connected to the internet. By default, users may go to the licensing view of either TAP 7 or TAP Mapper and manually enter the license code and click Activate. If one or more seats are available then this will succeed and the user will be able to use the activated, licensed software. If all available TAP seats are currently active on other computers then a message will be displayed saying that the number of activations is exceeded and the software will remain in Demo mode.

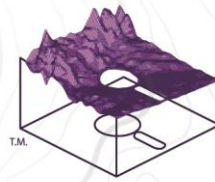

This operation of a single- or multiple-seat system on a Windows network server computer (in contrast to installation on stand-alone computers) is still a system limited by the number of simultaneous users based on the number of purchased seats. This configuration permits any number of “users” to use the software as long as the number using it simultaneously is at or below the number of purchased seats. The number of simultaneous users is managed by SoftWright’s licensing technology.
